

Make a Plan to Love Me

Bright Eyes

I heard you're scheming new pyramids
Another big idea to get you rich
Make a plan to love me
Make a plan to love me sometime soon

You said you got a foot in the door
You buy and then you sell, you buy some more
Make a plan to love me
Make a plan to love me sometime soon

Life's too short, death doesn't ask
It don't owe you that
Some things you lose, you don't get back
So just know what you have
And make a plan to love me
And make a plan to love me sometime soon

First you want to ride off into the sun
Then you want to shoot straight to the moon
Make a plan to love me
Make a plan to love me sometime soon

When you are young, the world is a Ferris wheel
I know we will grow old, it is lovely, still
Make a plan to love me
Make a plan to love me sometime soon

Life's too short to be a fool
I don't owe you that
Do what you feel, whatever is cool
But I just have to ask

Will you make a plan to love me?
Will you make a plan to love me?
Will you make a plan to love me sometime soon?
