

One Straw (Please)

Bright Eyes

And if it's true, baby, I'm the one in love with you
And I guess that I've been all my life and I love, and I'll try
And I love you more than those other guys
It's 'cause you mean the world to me

You're exactly what I need
Baby, I'm waiting for you to stop shaking
And come closer to me
My love and protection
My love and devotion
Devotion
Devotion
Devotion

Cover the spread on the beds
And I'm now the one who won your heart
And I hope that you'll always be mine
'Cause our love is full of time

Trust is a virtue
I never desert you
Or leave you behind
Forever and ever
Yeah, we'll be together
Together
We'll be
We'll be

And if it's true, baby, I'm the one in love with you
And I swear that I've been all my life
Cover the spread on the beds
Baby, I'm the one that won your heart and I know

And if it's true
And if it's true
And if it's true
And if it's true
