

I'll Always Be Around

Brighten

Watch as the moonlight creeps into the room.
I think I just might wanna be with you too.
As I'm dancing down the halls
Applying glitter on the walls
I cannot wait for you

Because I don't wanna sleep at all
But you'll try to sleep it off

And darling I, I can't slow down
Don't know why I do the things I do
But I'll always be around.

You'll dream of me love
Walking on your roof
Climb through the window, live up on the moon
Where we walk among the stars
And where know what's here is ours
Cause I made it all for you

I don't wanna sleep at all
But for you I'll sleep it off.

And darling I, I can't slow down.
Don't know why I do the things I do
But I'll always be around.

And darling I, I can't slow down.
Don't know why I do the things I do
But I'll always be around.
But I'll always be around.
