

# Leather Weather

Brighten

She's cold just like her shoulder  
She makes it hard to breathe  
Oh, baby, tell me that you're sober  
You got me down here on my knees  
Just beggin' like  
(Baby, can you love me, love me?)

She kills the lights wrapped up tight in her winter sweater  
She can't stand to be alone  
She can't act like she's not excited for leather weather  
She could love me but she won't  
She's so cold  
She's so cold

We both know it ain't no secret  
You try to play me like a fool  
I might've done the same to a couple girls myself  
But I can't help the way I feel when I'm with you  
You got me like  
(Baby, can you love me, love me?)

She kills the lights wrapped up tight in her winter sweater  
She can't stand to be alone  
She can't act like she's not excited for leather weather  
She could love me but she won't  
She's so cold, cold  
She's so cold

She kills the lights wrapped up tight in her winter sweater  
She can't stand to be alone  
She can't act like she's lot excited for leather weather  
Oh, she could love me but she won't  
She's so cold, cold  
She's so cold  
She's so cold, cold  
She's so cold
