

Never Alone

Brighten

Find another girl like her
I dare you to
She deserves a man to love her still
Her father left her empty with a dream to find a real man who will
'Cause she don't want to be alone

Her mother says to run and never turn around
Never make the same mistakes we did
Here's your chance to start again
To wash away the dirt you learned as kids
She don't want to be alone

She don't like the way she looks in the mirror
I don't like the way she looks in the mirror every chance that she gets
She's as good as it gets
Have no fear my dear
You will never be alone

Don't believe the things your exes say to you
They're still looking for the reason of life
They tossed you to the curb and made a mockery of a perfectly good wife
'Cause they don't want to be alone

You don't like the way you look in the mirror
I don't like the way you look in the mirror every chance that you get
You're as good as it gets
Have no fear my dear
You will never be alone

So take it slow, my dear
You'll never know my dear
Second chances come around
I promise you to trust me--never fear

You don't like the way you look in the mirror
I don't like the way you look in the mirror every chance that you get
You're as good as it gets
Have no fear my dear
You will never be alone
You will never be alone
