

## The Closer I Get

Brighten

My gut tells me something I won't tell the others  
They won't understand me, I'm not showing colors  
But I will show them you

You spin me in circles  
You ruffle my feathers  
Change my directions  
I'm off to better weather  
I will see you soon

Darling your heart beats faster and faster the closer I get to  
you  
My past will show this feeling won't last her more than a day o  
r two  
But you, I will get you  
I will get you

There's something inside me, I feel the commotion  
She's got reservations but I've got the notion  
That she feels the way I do

And probably to some degree I've got some qualities  
That you don't like, and you just might have a few that bother  
me  
But that's what I love about you

Darling your heart beats faster and faster the closer I get to  
you  
My past will show this feeling won't last her more than a day o  
r two  
But you, I will get you  
I will get you

So darling don't worry or feel insufficient  
We must have a reason we trust our decisions  
To love and fear  
To trust and deal with anything and everything

Darling your heart beats faster and faster the closer I get to  
you  
And my past will show this feeling won't last her more than a d  
ay or two  
But you
