

## Yeah You

Brighten

Pretty little girl, won't you come on over?  
You've been workin' too hard  
Pour a little wine, maybe call in an order  
We don't gotta go far  
We can just chill like we love to do  
We can lay out on the couch

We can build a fire, baby, put on a movie  
We can talk about  
Whatchu wanna watch while you fall into me?  
Take an hour to pick it out  
We can laugh like we love to do  
Hey, baby, whatchu thinkin' bout?

'Cause I've been thinkin' bout what you and I could be  
So why not try it out? You feel the same for me?  
Can you imagine how perfect we could be?  
But only if you wanted to  
'Cause girl, I think I like you  
Yeah, you

Middle of the night to the top of the morning  
You've been on my mind  
Another girl calls, but I just ignore it  
Heaven knows she's a waste of time  
Baby, you're the only one  
You're the only one I want

'Cause I've been thinkin' bout what you and I could be  
So why not try it out? You feel the same for me?  
Can you imagine how perfect we could be?  
But only if you wanted to  
'Cause girl, I think I like you  
Yeah, you

So tell me, is there anything that I could say to you  
To make you want me, too?  
We've been runnin' round in circles, we've been playin' games  
'Cause I think you do  
(Girl, I know you do)

'Cause I've been thinkin' bout what you and I could be  
So why not try it out? You feel the same for me?  
Can you imagine how perfect we could be?  
But only if you wanted to  
'Cause girl, I think I like you  
Yeah, you
