

Careless we run into ocean waves  
Moments alive and visions of your face  
We were fearless, we were brave  
We were drifting  
Away.

Try and remember how it used to be  
Were we alive in this distant dream?  
Take my hand hold on tight  
We can go back tonight

Graciously walking through fields of gold  
As angels' wings were waiting to unfold  
We were fearless, we were brave  
You were taken  
Away.

Time froze here.  
As i watched you  
As I lost you  
I exhale  
As I let you  
I let you

Try and remember how it used to be  
Were we alive in this distant dream?  
Take my hand hold on tight  
We can go back tonight

Try and remember how it used to be  
Were we alive in this distant dream?  
Take my hand hold on tight  
We can go back tonight
