

Bottle Rocket

Briston Maroney

Well, what were the odds?
I never wished to be something I'm not
Seems I forgot
A closed door isn't always locked

And all my life
Waiting for a little spark
All my time
Circling around the dark
It's a pretty good place to start

Come to find
I'm the one that will decide
My life
It just takes a little time
It's a bottle rocket
(Time)
It's a bottle rocket

Turn back to the shelf
Reading every letter I wish I wrote myself
So get in the car
All this talk, it only gets you so far

And all my life
Waiting for a little spark
I decide
Circling around the dark
It's a pretty good place to start

Come to find
I'm the one that will decide
My life
It just takes a little time
It's a bottle rocket
(Time)
It's a bottle rocket

Don't stop yourself from starting this over
Don't stop yourself from starting
Don't stop yourself from starting this over
You only stop yourself

Come to find
I'm the one that will decide
My life
It just takes a little time
It's a bottle rocket
(Time)
It's a bottle rocket
(Time)
It's a bottle rocket
(Time)
It's a bottle rocket
