

Rollercoaster

Briston Maroney

There's a party at your older brother's
Let's go and sneak out late
Drink from bottles, different shapes and colors
See how much we change

Let's see where this goes
'Cause you swore that you would
But it won't and I know
That we do, but we don't
And I know we're never gonna change

Oh, baby, I'm a roller coaster
Stuck at the top
Every step that I'm takin' closer I
I start to drop

There's a reason for my sickness, baby
It's just somebody's sick point of view
Everything that I thought I needed was
Someone, somebody's truth

Let's see where this goes
'Cause you swore that you would
And it won't and I know
And I know that it won't
And we don't and I'm never gonna change

Oh, baby, I'm a roller coaster
Stuck at the top
Every step that I'm takin' closer I
I start to drop
And everything that I want to be, oh, baby
I am not
I wish you could remember my love
'Cause you know I forgot
