

Edgy Looking Clothes

British India

You got edgy looking clothes It's personality though I
don't know where you're from But I know where you'll go
Have a pointless conversation With the people you know
Buy a shirt like the rest Then you'll but it on show

When fashion walks you listen I see a price tag on you; I
see a price tag on you But I know you better than your
clothes

And I know that you won't stop Anything that they say Is
the colour the shape And the size of the waist And I
never have to guess Where you'll be on Wednesday I can
come if you like I can come but can't stay

But I know you better than your clothes
