

Forget Prior engagements  
Cancel your plans  
Let's do something amazing  
Why we still can  
I'm floating above you  
High on your kiss  
We're splashed like paint on the pavement  
A beautiful waste

I'll drop bombs in the valley  
If he comes near you  
I'm gonna make something happen  
Watch what you do  
I can't breathe underwater  
I can't stand in the air  
But I can tear up your whole world  
And not even care

So make lists of your lovers  
People you kiss  
Then tear them to pieces  
Forget they exist  
My hometown's a wasteland  
Frightened of ghosts  
We're splashed like paint on the pavement  
This isn't my home

I'll drop bombs in the valley  
If he comes near you  
I'm gonna make something happen  
Watch what you do  
I can't breathe underwater  
I can't stand in the air  
But I can tear up your whole world  
And not even care  
I can't breathe underwater  
I can't stand in the air  
But I can tear up your whole world  
And not even care
