

Over in the Corner

British Sea Power

Over in the corner
Electrical boxes all made of light
Deliver lights for you
A little light and shadows too

And all they ever told you
Darkness and conjecture overrule
And I know what you said
And I know what you did but it's hard to prove
Oh, oh so innocent

Over my dead body
You might win
Over my dead body
Let them in
Yellow, pink and blue
Are innocent
Oh let them win
So let them win

It's over in the morning
As a reef shark flaps against the failing moon
Oh no it won't do
A little less light and shadows too
So nothing's left to lose now
As a whilsting star emits a quiet noise
Oh, it could be me or you

Over my dead body
You might win
Over my dead body
You might win
Over my dead body
You might win
Over my dead body
You might win

Yellow, pink and blue
The innocent
They're innocent
So let them win
So let them win
Oh let them win

Over my dead body
You might win
Over my dead body
Oh you might win
Oh you might win
Oh you might win
Innocent, oh you might just win, win
Innocence
You might win...
