

Feather In The Wind

Britnee Kellogg

I'm a hippie at heart, I'm a shot in the dark
Tellin' single-malt stories in the back of a bar
I'm a snapback hat, cry when I laugh
Whole lotta fire when you turn on the gas
Faded jeans, Dylan tee, wild dreams

Some are made to settle down
Put their roots right in the ground
I'mma blow from town to town
Little lost and a little found
Follow my heart on a prayer and a whim
Like a feather in the wind

I'm a grass always green, there's more underneath
Mix of Johnny Cash with a little bit of Queen
I'm a wheel to the floor, lover to the core
Hundred miles an hour, always searching for more

Some are made to settle down
Put their roots right in the ground
I'mma blow from town to town
Little lost and a little found
Follow my heart on a prayer and a whim
Like a feather in the wind

Feather in the wind, yeah
I'mma let it fly (I'mma let it fly)
Gonna let it go (gonna let it go)
Right here tonight (right here tonight)
Gonna let it go, yeah

Some are made to settle down
Put their roots right in the ground
I'mma blow from town to town
Little lost and a little found
Follow my heart on a prayer and a whim, yeah
Follow my heart on a prayer and a whim
Like a feather in the wind, yeah

Feather in the wind
Feather in the wind
