

# Blur

Britney Spears

Turn the lights out  
This shit is way too fucking bright  
Wanna poke my eyes out  
If you wanna mess with my eyesight  
Just let me get my head right  
Where the hell am I?  
Who are you?  
What'd we do  
Last night?  
Hey yeah yeah  
Who are you?  
What'd we do  
Last night?  
Hey yeah yeah

Can't remember what I did last night  
Maybe I shouldn't have given in  
But I just couldn't fight  
Hope I didn't but I think I might've  
Everything, everything is still a blur  
Can't remember what I did last night  
Everything, everything is still a blur (Did last night)  
Can't remember what I did last night  
Everything, everything is still a blur  
What's your name, man?

Can you calmly hand me all my things?  
I think I need an aspirin  
Better yet, I need to get up outta here  
I gotta get my head right  
Where the hell am I?  
Who are you?  
What'd we do  
Last night?  
Yeah yeah yeah

Can't remember what I did last night  
Maybe I shouldn't have given in  
But I just couldn't fight  
Hope I didn't but I think I might've  
Everything, everything is still a blur  
Can't remember what I did last night  
Everything, everything is still a blur (Did last night)  
Can't remember what I did last night  
Everything, everything is still a blur

What happened last night?  
'Cause I don't-- 'cause I don't remember  
What happened?

Can't remember what I did last night  
Maybe I shouldn't have given in  
But I just couldn't fight  
Hope I didn't but I think I might've  
Everything, everything is still a blur  
Can't remember what I did last night (Blur)  
Everything, everything is still a blur (Did last night)

Can't remember what I did last night  
Everything, everything is still a blur
