

# Girls & Boys

Britney Spears

Lying in bed, touching my skin  
Oh God I wish you weren't sleeping  
I long for your lips, to kiss me again  
Don't you know my body's aching?

Seems we always have a little price to pay,  
Price to pay, I'm Falling in love  
It all starts, starts to fade

Bad girls, and bad little boys  
Won't last forever  
But Good girls, and good little boys  
Will make love together

I look at your face, As I lie awake  
My body's slowly moving closer  
My hand on your leg  
My mouth on its way  
Oh baby, I'll just turn you over

Seems we always have a little price to pay,  
Price to pay, (uh) I'm Falling in love  
It all starts, starts to ache

Bad girls, and bad little boys  
Won't last forever  
But Good girls, and good little boys (boys)  
Will make love together...

Love together, love together,  
Love together, love together,  
Love together...

Do you like this? I like this  
I want you alright  
Do you wanna touch me?  
I like this  
Can you handle this?  
I like this

We're gonna slow it down,  
Just a little bit

I'm lying in bed, touching my skin  
I just can't take it baby  
Open your eyes, whisper to me..  
Do it again, do it again

Bad girls, and bad little boys  
Won't last forever  
But Good girls, and good little boys (boys)  
Will make love together

Bad girls, and bad little boys  
Won't last forever  
But Good girls, and good little boys (boys)

Will make love together

Love together, love together,  
Love together...

That's good, do you like this?  
Yeah, gonna slow it down  
We'll make love together
