

If I'm Dancing

Britney Spears

Cinematic, take it right back
With a bottle of perfume lotion
Where'd you come from talking like that?
Butterfly from the bottom of the ocean
I can't stop this slow motion trip...

Been away with me, no politics
It's a perfect notion
Your gravity has got me
Bowing in devotion
You and me fit a magic trick...

If I'm dancing, if I'm dancing, if I'm dancing
I know the music's good
If we're dancing, if we're dancing, if we're dancing
I know that we'll be good

One look at him and I see
Candy-coated heart shapes
The jewels and furniture can go
But baby, he stays
He plays sitar, three notes so far...

If I'm dancing, if I'm dancing, if I'm dancing
I know the music's good (did you get that?)
If we're dancing, if we're dancing, if we're dancing
I know that we'll be good

My chakra's all been green and red
But he wants blue and green instead... (let's just do it over)
My chakra's all been green and red
But he wants blue and green instead...

If I'm dancing, if I'm dancing, if I'm dancing
I know the music's good
If we're dancing, if we're dancing, if we're dancing
I know that we'll be good
