

Let Me Take You There

Britney Spears

Let me take you there (let me)
Let me take you there
Come on baby, let me take you there (let me take you there)
You and me everywhere
So boy, let me take you there

Come into my world, baby
A world that's filled with fantasy
Unlock the door, I hold the key
Let's go and be free baby, you and me

Hold on tight, let me take you there (let make take you there)
Stay with me, I'll show you that I can
Come on baby, let me take you there (take you there)
You and me everywhere
So boy, let me take you there

Forever, just hold onto me don't let go
You make me feel so complete
We'll always be as one
So happy, take this trip with me

Hold on tight, let me take you there (let make take you there)
Stay with me, I'll show you that I can
Come on baby, let me take you there (take you there)
You and me everywhere
So boy, let me take you there

Hold tight, your eyes won't believe
As we walk into the place of ecstasy, oh yeah
You know I want you and you know you want me
In time you'll see, it's our destiny

(Let me take you there, baby)
(Just let me, just let me...)

Oh, let me hold you, just let me console you
Let me lead you into my world
I like the way I feel about you baby, yeah (naw, yeah)
So boy, let me take you there

Hold on tight, let me take you there (let make take you there)
Stay with me, I'll show you that I can
Come on baby, let me take you there (take you there)
You and me everywhere
So boy, let me take you there
