

# Money, Love And Happiness

Britney Spears

I'm about to go crazy

I know you wanna get in my head  
I'd rather get in yours instead  
Boy you knock me off my feet  
This girl bring the heat

Don't forget to paint the town  
I know you wanna hear my sound  
Don't try to be too tough

Don't take this out of context  
But when it comes to being the best  
There ain't no contest  
You should know by now my name's synonymous

With all the hottest hits I keep them breathless  
It's endless  
Boy relentless

People pay me compliments (you're so wonderful)  
Boosting up my confidence  
All it takes common sense  
All it takes is money, love and happiness

Money, love and happiness  
Money, love and happiness  
Happiness, happiness, money, love and happiness  
Happiness, happiness, money, love and happiness  
Happiness, happiness, money, love and happiness

You know what they say about money  
That it can't buy happiness  
I just need to know

Is this real or just a dream  
Hold myself in high esteem  
Picky about the little things  
Come full circle like a band of wedding rings

Continuing living in the life of lux  
Life sometimes, I know it sucks (it's real shitty)  
Boy I'm not asking much

People pay me compliments  
Boosting up my confidence  
All it takes is common sense  
All it takes is money, love and happiness

Money, love and happiness  
Money, love and happiness  
Happiness, happiness, money, love and happiness  
Happiness, happiness, money, love and happiness  
Happiness, happiness, money, love and happiness

All I gotta say, I wanna be in love  
I wanna run away to a place of

Fairy land of dreams, that is where I'll find  
Everything I need to have a peace of mind, ow

All it takes is money, love and happiness

Happiness, happiness, money, love and happiness  
Happiness, happiness, money, love and happiness  
Happiness, happiness, money, love and happiness  
Happiness, happiness, money, love and happiness

Money, love and happiness  
Money, love and happiness  
Money, love and happiness  
Money, love... oh
