

# Outta This World

Britney Spears

I know you hear me on your radio  
Well here we go  
Please turn up your radio  
Wanna tell you somethin  
Hear me on your radio  
Well here we go  
Please turn up your radio  
Wanna tell you somethin

There was a time  
I used to think  
That love would never turn into reality  
I never thought  
I'd find the one  
But I tell I'm drawn to you a strength of none

You must be from heaven, baby, yes you are  
Your love is like a shooting star  
So they can try but they can't touch (touch)  
You gotta look up to us

'cause your love is outta this world (oh)  
And you bring me down to earth  
I love how you put me first (oh)  
Make me feel my every word  
'cause I'm saying, you know this is about you  
I keep saying you know this is about you  
It must be  
This is about you  
I never felt this way  
I know this be a song about you  
Forever, everyday  
I know this be a song about you

I'll be your moon  
I'll make it bright  
And when it's dark I promise that you'll see the light  
And just as far as the moon from the summer sun  
That's how long that I'll be here  
And it's because

You must be from heaven, baby, yes you are  
Your love is like a shooting star  
So they can try but they can't touch  
You gotta look up to us

In my sky  
We're the stars  
I'm on Venus  
You're on Mars  
People can't understand  
How I'm your girl and you're my man

In my sky  
We're the stars

I'm on Venus  
You're on Mars  
People can't understand  
How I'm your girl and you're my man
