

# Phonography

Britney Spears

We're not so different  
You and me  
'Cause we both  
Share our share of obscenities  
And everybody's  
Got some freaky tendencies  
Hidden or admitted  
'Cause we all got needs

And I make no apologies (Huh-huh)  
I'm into phonography (Huh-huh)  
And I like my bluetooth, buttons comin' loose  
I need my hands free (Huh-huh)  
Then I let my mind roam (Huh-huh)  
Playin' with my ringtone  
He got service, I've got service  
Baby, we can talk all night (Go)

Let's talk about biology  
Make believe you're next to me  
Phonography, phonography  
Talk that sexy talk to me  
Better make sure that the line is green  
Keep it confidential, you and me  
Phonography, phonography  
Dirty talk and call it phonography (Hey!)

I can follow  
All your commands  
But there will be no talk of  
Adding you to my plan  
I'll keep you connected  
Long as you understand  
That's how we should keep it  
Mr. Telephone Man

And I make no apologies (Huh-huh)  
I'm into phonography (Huh-huh)  
And I like my bluetooth, buttons comin' loose  
I need my hands free (Huh-huh)  
Then I let my mind roam (Huh-huh)  
Playin' with my ringtone  
He got service, I've got service  
Baby, we can talk all night (Go)

Let's talk about biology  
Make believe you're next to me  
Phonography, phonography  
Talk that sexy talk to me  
Better make sure that the line is green  
Keep it confidential, you and me  
Phonography, phonography  
Dirty talk and call it phonography (Hey!)

Baby, if you're not alone  
Take me off speakerphone  
What I'm 'bout to say right here

Is just for your ears to hear  
If you need to  
Hit me back, hit me back  
I got a star 69  
For that shit, for that shit (Go)

Let's talk about biology  
Make believe you're next to me  
Phonography, phonography  
Talk that sexy talk to me  
Better make sure that the line is green  
Keep it confidential, you and me  
Phonography, phonography  
Dirty talk and call it phonography (Hey!)

Phonography  
Phonography  
(Go)
