

# Electric Love

**Britt Nicole**

Electric love  
Electric, it's electric  
Electric love  
Electric, it's electric

Sittin' here just waiting for my cell phone to ring  
'Cause I can't get you off my mind  
My heart is racing faster than electricity  
Cause I keep thinkin' about that night  
And then when you held my hand  
Asked me to dance  
We danced under the lights  
Remember when you took that chance on a sweet romance?  
Boy, you got it right

Cause we got that, electric love  
Electric, it's electric  
Electric love  
Electric, it's electric  
I like how I feel when I feel what I feel cause I know that it's true with y  
ou  
Oh, I like how I feel when I feel what I feel cause I know it's true  
I like how I feel when I feel what I feel cause I know that it's true with y  
ou  
Electric love

Now we got this power that's between you and me  
Like lightning will light up the sky (light up the sky)  
If we got each other we got what we need  
Forever will be burnin' bright  
Remember when you held my hand  
Asked me to dance  
We danced under the lights  
Remember when you took that chance on a sweet romance?  
Boy, you got it right

Cause we got that, electric love  
Electric, it's electric  
Electric love  
Electric, it's electric  
I like how I feel when I feel what I feel cause I know that it's true with  
you  
Oh, I like how I feel when I feel what I feel cause I know it's true  
I like how I feel when I feel what I feel cause I know that it's true with y  
ou  
Electric love

So tell me where you wanna, where you wanna go  
We can fly to the moon and watch the world down below  
We can sail into the open, we can sail into the open seas  
Boy if I got you I got all I need

Yeah, cause we got electric, we got electric love  
Baby, we got electric, we got electric love

Electric love  
Electric, it's electric

Electric love  
Electric, it's electric  
Electric love  
Electric love  
Electric love  
Electric love  
Electric love  
Electric love  
Electric love  
Electric love

Electric love (I like how I feel when I feel what I feel cause I know that i  
t's true with you)  
Electric love (Oh, I like how I feel when I feel what I feel cause I know it  
's true)  
Electric love (I like how I feel when I feel what I feel cause I know that i  
t's true with you)

Remember we were dancing all through the night  
We took a chance and boy did we get it right  
Remember we were dancin'  
Remember we were dancin' all through the night  
We took a chance and boy did we get it right  
Remember we were dancin' all through the night  
We took a chance and boy did we get it right  
Remember we were dancin' all through the night  
We took a chance and boy did we get it right
