

# No Filter

**Britt Nicole**

There it is, I think we got the perfect shot  
You'd never know at dinner we didn't even talk  
And we look so amazing, who wouldn't wanna be us?  
But the smile that we're faking fades when the camera's off

And we hold it just for the moment

And what we let the whole world see  
Isn't really you and me  
So tell me was a picture worth?  
If we can't say a single word  
We always put a filter on  
To try to cover up the flaws  
And if we do it all for show  
I think it's time we let it go

Cause I can picture us, picture us  
I can picture us with no filter  
I can picture us, picture us  
I can picture us with no filter on

Remember when we didn't have to live a lie  
And now we can't even look each other in the eye  
Yeah, I'd like to believe we could go back to the start  
And if we turn it off would you see me in the dark?

Can you hold me  
Just for a moment?

And what we let the whole world see  
Isn't really you and me  
So tell me was a picture worth?  
If we can't say a single word  
We always put a filter on  
To try to cover up the flaws  
And of we do it all for show  
I think it's time we let it go  
Time we let it go

Cause I can picture us, picture us  
I can picture us with no filter  
I can picture us, picture us  
I can picture us with no filter on

And we look so amazing, who wouldn't wanna be us?  
But the smile that I'm faking  
Fades when the camera's off  
And we hold it  
Just for the moment

And what we let the whole world see  
Isn't really you and me  
So tell me was a picture worth?  
If we can't say a single word  
We always put a filter on  
To try to cover up the flaws  
And if we do it all for show

I think it's time we let it go

Cause I can picture us, picture us  
I can picture us with no filter  
I can picture us, picture us  
I can picture us with no filter on  
With no filter on
