

Girl I ain't playin' around but you stopped the show  
You didn't realize, you're just doin' your thing  
I start imagining you, taking off your clothes  
I wanna feel your skin on my skin

Dance with me tonight, girl you're racin' my temperature  
When I see that look in your eyes

Girl you're makin' me crazy, hands all over my body  
Touching me while I'm touching you  
Don't you know  
You're driving me crazy, girl you're looking so sexy  
You on me and then me on you, me on you

I think we better slow down, just cool it  
I'm going crazy 'cause I can't get you off my mind  
You got me thinking and I cant stop it  
Your sexy body on top of mine, boy

Move with me tonight, let me see ya when you work that thing  
When I see that look in your eyes

Girl you're makin' me crazy, hands all over my body  
Touching me while I'm touching you  
Don't you know  
You're driving me crazy, girl you're looking so sexy  
You on me and then me on you, me on you
