

## A Little Light

Broadcast

See the cupboard as the door  
The ceiling as the floor  
Just imagine a little light  
To feel a little more

It won't take you long  
To overcome the dark  
You have to imagine a little light  
To feel a little spark

Keep a line for the darkness of things  
Keep an eye for the the sunshine

When what you finally do  
Is not what you set out to  
Touch a little switch  
In the gloom of your room

See the cupboard as the door  
The ceiling as the floor  
Just imagine a little light  
To feel a little more

Keep a line for the darkness of things  
Keep an eye for the the sunshine
