

A Seancing Song

Broadcast

Stars start they blue, they bloom, they bloom, they bloom
Its all in the room, the room, the room, the room

Suns, suns how they bloom, how they bloom
In the room, in the room in the afternoon

All day round goes the light and dark
It makes one person ready before the first
Innocent ascension around the log
Was it distinct? it does not cover

Suns, suns how they bloom, how they bloom
In the room, in the room, afternoon
Afternoon

You go to sleep under draws
Astro something dynamic
You go to sleep under draws
Astro something dynamic
