

# Dancing on the Ceiling

Broadside

Desperation had me actin' out  
Blurry nights of tryna find myself  
Like the desert as it prays for rain  
It's never enough nough nough  
Isolation got me lonely now  
What a funny way of finding out  
From the moment that I saw your face  
Could I be enough nough nough?

We were dancing on the ceiling  
I can feel it  
Girl you know I love to lose control  
Tell me can you feel it  
Cause I feel it  
Shaking from our head down to our toes  
It's you, it's you, it's all for you  
You know I'd do most anything  
I'm dancing on the ceiling with you

I used to wake up in a stranger's house  
Left with pieces of my own self doubt  
Now I'm wrapped up in your embrace  
Feels like I'm enough nough nough  
The situations kind funny now  
All the women that I gave myself  
Since I met you girl I haven't been the same  
This must be love love love

We were dancing on the ceiling  
I can feel it  
Girl you know I love to lose control  
Tell me can you feel it  
Cause I feel it  
Shaking from our head down to our toes  
It's you, it's you, it's all for you  
You know I'd do most anything  
I'm dancing on the ceiling with you

To the boys with the sunken pride  
Just let it go and it could save your life  
To the girls with the empty eyes  
Put it aside and it could change your life

To the boys with the sunken pride  
Just let it go and it could save your life  
To the girls with the empty eyes  
Put it aside and it could change your life

To the boys with the sunken pride  
Just let it go and it could save your life  
To the girls with the empty eyes  
Put it aside and it could change your life

We were dancing on the ceiling  
I can feel it  
Girl you know I love to lose control  
Tell me can you feel it

Cause I feel it  
Shaking from our head down to our toes

We were dancing on the ceiling  
I can feel it  
Girl you know I love to lose control  
Tell me can you feel it  
Cause I feel it  
Shaking from our head down to our toes  
It's you, it's you, it's all for you  
You know I'd do most anything  
I'm dancing on the ceiling with you
