

Dazed & Confused

Broadside

She likes the music real loud in the middle of the night
Wakes up the neighbors wasted on cheap ass wine
Oh, I kinda wouldn't mind if she ruined my life
She's got me dazed and confused but that's what I like

She reads her horoscope daily
She doesn't believe it though
She used to save her cash but lately
She spends it up her nose

Thigh tattoo, I'm feelin' it
Hot pink switchblade
Tucked in her favorite bag
My t-shirt she lives in it
She's my favorite kinda red flag

She likes the music real loud in the middle of the night
Wakes up the neighbors wasted on cheap ass wine
Oh I kinda wouldn't mind if she ruined my life
She's got me dazed and confused but that's what I like

She's always making plans just to break 'em
She knows she'll never show
She says she doesn't love me
But why are we taking off our clothes?

She likes the music real loud in the middle of the night
Wakes up the neighbors wasted on cheap ass wine
Oh I kinda wouldn't mind if she ruined my life
She's got me dazed and confused but that's what I like

She's my favorite kinda red flag

She likes the music real loud in the middle of the night
Wakes up the neighbors wasted on cheap ass wine
Oh I kinda wouldn't mind if she ruined my life
She's got me dazed and confused but that's alright

She likes the music real loud in the middle of the night
Wakes up the neighbors wasted on cheap ass wine
Oh I kinda wouldn't mind if she ruined my life
She's got me dazed and confused but that's what I like

Oh yeah
I said now that's what I like
Cause that's what I like
