In Return

Broadside

2 weeks on a 9 to 5
This shift’s gonna cross my mind
I gotta let you know
How much this hurts me so
It's time to wake up
And take one for the team
You know id never make you wait forever

I’ve gotta hold on
Your holding while I wait
Until you come home
Until you come home

Hold on
You're holding on to my hand
When we walk alone
When we walk alone

First off I'm not impressed
With all your of pushiness
It doesn't mean I gotta stand by
And watch you throw it all away

I hate to say that
I'm leaving you behind
Because I'm doing what it takes
To make it out

I’ve gotta hold on
You're holding while I wait
Until you come home
Until you come home

Hold on
You're holding on to my hand
When we walk alone
When we walk alone

This time I'll break it off easily
And don't try to make a promise you wont keep
Now you see it's not for real
It’s nothing new but agony
But I won't keep everything
And everyone

I’ve gotta hold on
(WHILE I WAIT)
Until you come home
Until you come home

Hold on
You're holding on to my hand
When we walk alone
When we walk alone

Hold on, until you come home
I’m holding on while I wait

Until you come home

Hold on, when we walk alone
You're holding on to my hand
When we walk alone
