

# Nights Alone

Broadside

I don't wanna spend the night alone  
Was kinda hoping you'd pick up the phone  
Cause I know of a place where we could go  
We could just lose control

Can I take you for a ride on a Saturday night?  
Wanna lose my mind on your body tonight  
We were underneath the stars with a bottle of wine  
She said come on baby lose control

She said the world moves fast so drive it slow  
I said the night is yours enjoy the glow  
Baby, I don't mind sleeping all alone  
But I'd rather wake up next to you

We lost control  
Undressing to the radio  
So let's pretend we're not in love  
So we can fall in love tonight  
Cause you make me feel so alive  
You take me out of my mind

I am yours  
If you want it  
Just say the word  
You know that I got it

Can I take you for a ride on a Saturday night?  
Wanna lose my mind on your body tonight  
We were underneath the stars with a bottle of wine  
She said I never wanna let you go

We lost control  
Undressing to the radio  
So let's pretend we're not in love  
So we can fall in love tonight  
Cause you make me feel so alive  
You take me out of my mind

She said the world moves fast so drive it slow  
The night is ours enjoy the glow  
I don't mind sleeping all alone  
But I'd rather wake up next to you

We lost control  
Undressing to the radio  
So let's pretend we're not in love  
So we can fall in love tonight  
You take me out of my mind  
You make me feel so alive

I don't wanna spend the night alone  
Was kinda hoping you'd pick up the phone  
Cause I know of a place where we could go  
We could just lose control
