The Situation

Broadside

Tonight goes out
To who all hales up on the east coast
We are best of friends,
In this life we can work this out

This situation has got me on my knees
Spreading the word around
That I'm leaving this town

So I'll sit back and sleep the night away
Cause it's just the same day after day
I'll pick myself right off the ground,
It's just this job that wears me down

Tonight goes out
To who all hales up on the east coast
We are best of friends
In this life we can work this out
I won't let you down
We're all in this together
I'll see you around
We're all in this together

It comes to show that I'm a wreck
As this sweat pours right down on my neck
I'll work myself right to the bone
It comes to show that I'm alone

Well my friends they all know what it's about

In this town we have
The time of our lives
In this city we make the party's last forever

Tonight goes out
To who all hales up on the east coast
We are best of friends
In this life we can work this out
I won't let you down
We're in this together
I'll see you around
We're all in this together

We're taking over this town
(WE'RE TAKING OVER THIS TOWN)
We're taking over this town

Tonight goes out to
Who all hales on the east coast
I know we'll work this out

Tonight goes out
To who all hales up on the east coast
We are best of friends
In this life we can..

I'm speaking out loud,

While singing this song
It makes me think of all
The right I've done wrong
And we’ll miss
All these kids
With tattoos all on there wrist
Cant you see
This will be
A great adventure until the end
The end
