

BIG BOY

BROCKHAMPTON

I still remember writin' words down
Tryna get them all out of my mouth
Big boy, you a big boy now
Big boy, you a big boy now
Don't pout 'round me
Don't cry around me
Don't laugh 'round me
You ain't shinin' like me
You ain't shinin' like me
You ain't shinin' like my cousin
You ain't shinin' like me
You ain't shinin' like my cousin

If I had another
I'm a bad motherfucker
Got love for my mother
The city that protect me
I don't fuck with y'all like I used to though
But you could come around for the Houston baby, oh

I still remember writin' words down
Tryna get them all out of my mouth
Big boy, you a big boy now
Big boy, you a big boy now
Don't pout 'round me
Don't cry around me
Don't laugh 'round me
You ain't shinin' like me
You ain't shinin' like me
You ain't shinin' like my cousin
You ain't shinin' like me
You ain't shinin' like my cousin

Who the Hell am I?
Who the Hell are you?
Don't waste my time, I got shit to do
Been in love with you, don't know what to do
Still searchin' for the truth, every which way
Mental foreplay, bound by cuffs to you
Do it my way, like everything I do
Take my breath away
Don't let me fade away
May die before I wake
Not the type to play
I take, and take, and take
Never want a change
Always wanna change
Used to count my change
Everybody changed
Memories of the days
I was young at heart
Matters of the heart
Rearrange, reactions in my brain
Redefine my pain
Been wishin' I could change
Hard to change my ways
Trained a certain way

Afraid of my own fate
Just another phase

Lost cause and a lost child
Lost my way tryna change for the wrong crowd
I'm weak and I'll say it proud
Built me up, pull me down, let's air it out
Patch me up, and stitch it
Make me better
Just patch me up, and stitch it
Make me better (Make me better)

What a day, what a day
I just had a dream that you took it all away (Ayy)
Blow smoke in the face
I just hope your lil' bro grow to be great (Ayy)
What a day, what a day
I just had a dream where you took it all away (Ayy)
Blow smoke in the face
One in the clip, and one in the chamber (Yeah)
We was ridin' in the dark, you were putting your legs up (Legs up)
Girl, I don't know, maybe I should just stay shut (Stay shut)
Did I ruin your life baby, even from day one? (Uh-uh)
If it was another life, maybe you could still save us (Ooh-ooh)

I still remember writin' words down
Tryna get them all out of my mouth
Big boy, you a big boy now
Big boy, you a big boy now
Don't pout 'round me
Don't cry around me
Don't laugh 'round me
You ain't shinin' like me
You ain't shinin' like me
You ain't shinin' like my cousin
You ain't shinin' like me
You ain't shinin' like my cousin
