BROCKHAMPTON

I'm sorta back  
I'll quarter back yo side chick  
Hut hut one hike bitch  
Don't hide her I'll find it  
Hit it once then rewind it  
Hit it twice then get blinded  
We get blunted  
I don't trust em  
And I don't act like I love em  
I finally finish, she finally famous  
I finally did it I found me a stranger, I took her to dinner  
And then I got in it I told her she ain't shit and then she replaced me  
With some other nigga, she told me she hate how I roll  
Better than taking this chick on the road  
Better than taking this chick to my show  
Get straight, keep pace or keep space from my face  
No taste, a lot of ladies is 6th place, type to get misplaced drunk and thro  
wed  
Shawty was getting old, and she ain't know that I was cold  
And she always wanted more  
Click clack boom bap goes the beat  
When I can't keep shawty on her feet

No more tears  
No more fears  
No more years, to waste on thoughts unclear

I don't need you, I don't one I need some more  
Treat me so bad, fuck you so good, oh yeah that's love  
You need a hero, you need a hero baby  
You need a hero, you need a hero baby

You can't wait for love that shit don't last forever  
I can't wait for you that shit don't last forever  
I know you well know you better than yourself  
Know your ins and outs and curves you swerving straight into your house  
You know my name  
Say my name touch yourself we got issues  
Know your frame  
Know your game we got issues  
Know I'm lame  
Know you same we got issues  
Keep it strange  
No to blame  
Fuck you and your shit  
Swear you burn like matches tip  
Swear you fucked like half these kids  
How to love on such a bitch  
Shoulda fucked up on your cousin  
She look good even with black eyes  
Next time that you say you love me baby I'll just ask why ya here

No more tears  
No more fears  
No more years, to waste on thoughts unclear

I don't need you, I don't one I need some more

Treat me so, bad fuck you so good, oh yeah that's love  
You need a hero, you need a hero baby  
You need a hero, you need a hero baby

She put her whole spirit in it  
She put her whole spirit in it  
She run around and keep her whole spirit in it  
She put her whole spirit in it  
She turn around she let the whole squad hit it  
She let the whole squad hit it  
She turn around she let the whole squad hit it  
She let the whole squad hit it
