

# PALACE

## BROCKHAMPTON

On a palace floor I see my soul  
Banging through the doors, we swing 'em closed  
We need glass or something strong  
For the creeps when you come 'round

I feel like fucking on the west side our parents are all gone  
Girl  
These strangers are coming out about twice as strong  
I know you say I miss it but come on baby please  
Just know you come off strong, your soul is getting lost

I wish you knew me  
I wish you knew  
I'm everything I am  
I'm everything I am  
But you don't know me  
I'm everything I am  
With everything I am  
You don't know me

Hold me down, I know I've lost control  
Picking up all of my dirty bones  
Oh I know there's something wrong  
Freak me out when you come round

I feel like fucking on the west side our parents are all gone  
And these strangers are coming out about twice as strong  
I know you say I miss it but come on baby please  
Just know you come off strong, your soul is getting lost

I wish you knew me  
I wish you knew  
I'm everything I am  
I'm everything I am  
But you don't know me  
I'm everything I am  
With everything I am  
You don't know me  
At all  
At all, at all, at all  
At all  
At all (You don't know)  
At all, at all, at all  
At all
