

## RED LIGHT

BROCKHAMPTON

It's true, by my heart- is real  
Is real believe nothing- is real  
Is real-

Want you to stay in my sleep (Hm-hm)  
Want you to say what I mean to me  
I would be at a red light all my life with you  
I would be at a red light

How many times you made me weep? A hundred times  
Pretend you didn't help me sleep? A hundred times  
How many times we split the bill? A hundred times  
Back when we had the time to kill, that was overkill  
You're a warning sign with a dollar sign, like, all the time (Y  
eah)  
I call you up, you don't call me back but I'll call you mine (Y  
eah)  
I put your heart on a dotted line and I crossed the line  
So tell me why I'm in the lobby on the rocks with lime (Ah)

Want you to stay in my sleep (Hm-hm)  
Want you to say what I mean to me  
I would be at a red light all my life with you  
I would be at a red light

How many times I wiped your tears? A hundred times  
And had your back throughout the years? A hundred times  
How many times I disappear? A hundred times  
But I reappear now, you see, I'm here, I can't leave it here  
So be a dear and just say the things that I need to hear  
'Cause you my baby, I only want you in my Mercedes  
I'm driving eighty in a fifty-five of a mile, impatient  
On the interstate where my mistakes stay overstated

I'll be waiting right there where you left me  
Right there where you lifted me up (Me up)  
(Where you lifted me up)  
I'll be waiting right there where you left me  
Right there where you lifted me up (Me up, ooh-ohh)  
Want you to stay in my dreams (Ooh-ohh)  
Want you to say you mean to me  
I would be at a red light all my life with you
