

# WEIGHT

BROCKHAMPTON

They split my world into pieces, I ain't heard from my nieces  
I've been feeling defeated, like I'm the worst in the boyband  
I ain't sleep in some weekends, tryna headline both weekends  
Leave my niggas y'all sheepin', I keep the world in my hands  
I know accounts should be deleted  
I know some niggas should stop hitting my phone  
Whenever they needing money or favors done  
'Cause I'm still worried 'bout  
When Ashlan finna put the razor down  
So I don't really give a fuck about a story they done spun  
And I ain't done  
And I ain't done, ya heard me?

I really miss the old days before the cosigns  
I really miss them cold days before the road signs  
I really miss when I ain't know which way I was supposed to head  
And I was pressed because my shorty gave me cold signs  
I was writing poems 'bout a dog and study hall  
And she was mad cause I never wanna show her off  
And every time she took her bra off my dick would get soft  
I thought I had a problem, kept my head inside a pillow screaming

I don't wanna waste no more time  
I'm ready to go  
I live my life on standby  
I can leave you alone

'Cause we're born with a dollar sign attached to our temple  
Life is a dish served cold most times  
And all my life I've taken handfuls, force-fed by the hand that feeds us  
But not all hands created equal  
I stand by waiting for something good to come  
In due time, the skies will split for the sun to smile

My mother called me today  
She said she thought she felt my energy a country away  
I apologized for not calling enough due to weight  
But couldn't tell you if I kept it in my head to decay  
I asked her, "Why this world love echoing hate?"  
She said, "Don't let up soon'll start dictating your fate"  
I think the hardest part of love could be rebuilding the breaks  
Condition to 'em let the mental our foundation will shake  
There's no debate the road to peace is filled with snakes, you gotta keep yo  
ur cool  
And recognize them wolves that wanna try and leave you wool  
Don't let 'em treat you like a window, you know you a jewel  
This world is cruel and not as simple as they teach in schools  
Sometimes you've gotta step away and check your own intentions  
And analyze if what they do can compromise your vision  
If people trust you, they don't need to question your decisions  
You never needed them if they make you another villain (Pressure)

They tried to take the bike  
And they took my friend's bike  
And then friend was gonna get it back  
But then he didn't get it back  
And then we had to go to the police station

And then um then some (Pressure)  
A random stranger brought back his bike  
We just you know, and we didn't tell our mom  
So we got in trouble (Pressure makes me)  
Because they found out like a day later  
Do you want to start the game again?

Pressure makes me lash back, wish I could get past that  
I can't take a step back, makes me wish you'd pass that  
Pressure makes me lash back, wish I could get past that  
I can't take a step back, makes me wish you'd pass that  
Pressure makes, Pressure makes, Pressu-  
Wish I could, Wish I could, Wish I-  
I can't take, I can't take, I can't-  
Makes me wish, Makes me wish, Makes me-  
Pressure makes, Pressure makes, Pressu-  
Wish I could, Wish I could, Wish I-  
I can't take, I can't take, I can't-  
Makes me wish, Makes me wish, Makes me-  
Sippin' on my pain, smokin' on my pain  
Ingesting my pain, I just wanna play  
Sippin' on my pain, smokin' on my pain  
Ingesting my pain, I just wanna play  
Sippin on my, (sipping on my), smokin' on my (smokin' on my)  
Ingestin' my (ingestin' my), I just wanna (I just wanna)  
Sippin on my, (sipping on my), smokin' on my (smokin' on my)  
Ingestin' my (ingestin' my), I just wanna (I just wanna)
