

## Dark Star

Broder Daniel

I am a dark  
I see the cities' torn scars  
I find the raw back streets  
I know a back world

I see kings and queens at night  
In a world of neon lights  
I see crimes and skylines  
I've seen the night world burn

Only they who have loved  
Only they who have yearned  
Only they who have burned  
Only they can know me  
I am a dark star
