

Anybody Else

Broken Back

When the sun goes down
And the [?] is all
What we left, what we left
Come on, slow it down
Take a breath and fall
In my arms, in my arms

I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else
I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else

Anybody else
Anybody else

You know I was afraid as the time goes by, and
What the hell, baby, here's some lies
But I wanna grow old with you, my love
'Cause I have you now, I have you now
[?] comes, baby, don't you cry
Don't you hear I'll be by your side?
When I ask myself if I'm afraid to die
I say, but I'm in love not long enough

I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else
I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else

Anybody else
Anybody else

I wish you had never gone
Tell me what could I had done
I wish you will never love
[?] but me, eh
I wish you had never gone
Tell me what could I had done
I wish you will never love
[?] but me, eh

I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else
I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else

I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else
I don't know what we doin'
I don't know where we goin'
But I do know that I love you
More than anybody else

Than anybody else
