

Away We Grow

Broken Back

Many things to look forward to
Through the mist there's a morning sun
All in your own time
Out from the darkness
Away we grow

Many things to look forward to
Through the mist there's a morning sun
All in your own time
Out from the darkness
Away we grow

Wake up, Wake up
A new day has arrived
Daily intention with positive vibes
Best things in life they come with no price
And away we grow!

Look up, Look up
Can you see the blue sky
And new opportunity always arise
Best things in life yes they come with no price
And away we grow!

With just a little love to share here
Just a little time to spare here
Share good vibes and the spirits lifted

Many things to look forward to
Through the mist there's a morning sun
All in your own time
Out from the darkness
Away we grow

Many things to look forward to
Through the mist there's a morning sun
All in your own time
Out from the darkness
Away we grow

What If "I believe in what I see" turns out "I see what I believe" man
That's how you you gonna break free free

See now how the sun is shining no doubts they they fly away like sleeves man
That's how you you gonna break free free

When the head is slow na na
When the mood is low na na
Put the world on hold, na na
Think away we grow

Many things to look forward to
Through the mist there's a morning sun
All in your own time
Out from the darkness
Away we grow

Many things to look forward to
Through the mist there's a morning sun
All in your own time
Out from the darkness
Away we grow
Away we grow
