

Good Days

Broken Back

Yeah, you win some, you lose some
We got hearts breaking out here every day
Let's just drink wine and do something
Not gonna let all of the drama get in our way, mmh-hm

We put a message in a bottle
Said we'd read it years later
To remember how we went all out
And now I'm reaching for the bottle
Every time I read that letter out loud

Hey-oh, I really wanna know
Tell me now, where did all them good days go?
Let's get young before we get old
So we start singing, where'd the good days go?

Hey-oh, I really wanna know
Tell me now, where did all them good days go?
Let's get young before we get old
So we start singing, where'd the good days go?

Where'd the good days go? Oh-oh
So we start singing, where'd the good days go?
Where'd the good days go? Oh-oh
So we start singing, where'd the good days go?
Where'd the good days go?

Another day comes and the moment's gone
Sooner or later we'll be saying "take me back"
Just promise me you'll keep holding on
Stay young forever just like a photograph, mmh-hm

We put a message in a bottle
Said we'd read it years later
To remember how we went all out
And now I'm reaching for the bottle
Every time I read that letter out loud

Hey-oh, I really wanna know
Tell me now, where did all them good days go?
Let's get young before we get old
So we start singing, where'd the good days go?

Where'd the good days go? Oh-oh
So we start singing, where'd the good days go?
Where'd the good days go? Oh-oh
So we start singing, where'd the good days go?
Where'd the good days go?

Where'd the good days go?
Singing— good days go?
Where'd the good days go? Whoa, ooh-ooh
Ooh-ooh

When we were seventeen we fixed our worries
With our middle finger straight up, mmh-hm
We had a bunch of dreams and life was easy

Why'd we have to go and wake up?

Hey-oh, I really wanna know
Tell me now, where did all them good days go?
Let's get young before we get old
So we start singing, where'd the good days go?

Hey-oh, I really wanna know
Tell me now, where did all them good days go?
Let's get young before we get old
So we start singing, where'd the good days go?

Where'd the good days go? Oh-oh
So we start singing, where'd the good days go?
Where'd the good days go? Oh-oh
So we start singing, where'd the good days go?
Where'd the good days go?

Where'd the good days go?
Where'd the good days go?
