

Head Up

Broken Back

Every small steps
Everyday right
Keep this pace now and
Do not lose your way

Innocent face has
Wild side always
Hidden inside so
Do not be afraid

You got to show you now
You got to fight
You got to keep in mind
Patience and time

And you got to show you now
You got it right
You got to keep in mind
It's gonna be alright

Lift your head up
Take your time
Look the world up straight
Deep in, in the eye
Keep your head up
Hold it high
Look to the world and say
You gonna be all mine

Wild desires
Far from home
Flying higher
You feel it in your bones
What is coming
Is way much better than
What is gone so far
Better check your plans

You got to show you now
You got to fight
You got to keep in mind
Patience and time

And you got to show you now
You got it right
You got to keep in mind
It's gonna be alright

Lift your head up
Take your time
Look the world up straight
Deep in, in the eye
Keep your head up
Hold it high
Look to the world and say
You gonna be all mine

Lift your head up
Take your time
Look the world up straight
Deep in, in the eye
Keep your head up
Hold it high
Look the world and say
You gonna be all mine

You gonna be all mine
You gonna be all mine
You gonna be all mine
You gonna be all mine
