

## Let Go

Broken Back

Waste my days and my nights  
Watching skies falling down  
Silent cry lessening light  
Should I come back around

Now I sleep in the clouds  
Just to dream in the sky  
Seeking what sets my soul  
On fire and proud

Telling my head just to let go  
Telling my heart just to let it flow  
Telling my eyes just to get closed  
That's how I go with the flow

Telling my head just to let go  
Telling my heart just to let it flow  
Telling my eyes just to get closed  
That's how I go with the flow

If I fall on my knees  
I'll be back on my feet  
Cause I follow my dreams  
Flying away on my fleet

Now I sleep in the clouds  
Just to dream in the sky  
Seeking what sets my soul  
On fire and proud

Telling my head just to let go  
Telling my heart just to let it flow  
Telling my eyes just to get closed  
That's how I go with the flow

Telling my head just to let go  
Telling my heart just to let it flow  
Telling my eyes just to get closed  
That's how I go with the flow
