

Let Go

Broken Back

Alright. "Let Go". Take one

Waste my days and my nights
Watching skies falling down
Silent cry lessening light
Should I come back around

Now I sleep in the clouds
Just to dream in the sky
Seeking what sets my soul
On fire and proud

Telling my head just to let go
Telling my heart just to let it flow
Telling my eyes just to get closed
That's how I go with the flow

Telling my head just to let go
Telling my heart just to let it flow
Telling my eyes just to get closed
That's how I go with the flow

If I fall on my knees
I'll be back on my feet
And if I follow my dreams
Flying away on my fleet

Now I sleep in the clouds
Just to dream in the sky
Seeking what set my soul
On fire and proud

Telling my head just to let go
Telling my heart just to let it flow
Telling my eyes just to get closed
That's how I go with the flow

Telling my head just to let go
Telling my heart just to let it flow
Telling my mind just to get closed
That's how I go with the flow
