

# Memories

## Broken Back

When I'm here, when on hold  
When I am getting cold  
When the sun sets, on your soul  
Life is crazy beautiful

Time is short, the world is wide  
Love is all, stop to hide  
Think all the places we could go  
Us alone

Let's get lost on the way  
We chase memories and let  
The rain wash away  
Our bones

Let's get lost on the way  
We chase memories, follow  
The sun every day  
To grow

Memories, memories, memories, memories

Turn your face to the sun  
Take a breath, break the chains  
All the footprints in the sand  
May relieve all your pain

Time is short, the world is wide  
Love is all, stop to hide  
Think all the places we could go  
Us alone

Let's get lost on the way  
We chase memories and let  
The rain wash away  
Our bones

Let's get lost on the way  
We chase memories, follow  
The sun every day  
To grow

Let's get lost on the way  
We chase memories and let  
The rain wash away  
Our bones

Let's get lost on the way  
We chase memories, follow  
The sun every day  
To grow

Memories, memories, memories, memories

Memories
