

My Love

Broken Back

I wanna grow old with you my love
I wanna dance dance like we were young
I wanna grow old with you my love
I wanna dance with you all life long

I wanna grow old with you my love
I wanna dance dance like we were young
I wanna grow old with you my love
I wanna dance with you all life long
My love, my love

Wasted tears, fresh new chapter
Bleeding heart heart crucified to her
Fresh new start now, fresh new letters
Few more years years, few years later

I wanna grow old with you my love
I wanna dance dance like we were young
I wanna grow old with you my love
I wanna dance with you all life long

I wanna grow old with you my love
I wanna dance dance like we were young
I wanna grow old with you my love
I wanna dance with you all life long

I wanna grow old with you my love
I wanna dance dance like we were young
I wanna grow old with you my love
I wanna dance with you all life long

My love, my love

I wanna grow old with you my love
I wanna dance dance like we were young
I wanna grow old with you my love
I wanna dance with you all life long
