

# Shine

## Broken Back

When the fire's low in December  
When the rain strikes on the shutters  
Give me hope in the darkness that I  
Run and run in the summer like

Stop for a breath and come up for air  
You know the finish line should still be there  
Stop for a moment, look up the sky  
Chasing your dreams sometimes drives you mad

Someday it is in your hands  
To put off this sad sad face  
Maybe you can move on  
Shine, shine in the darkest places  
Someday it is in your hands  
To put off this sad sad face  
Maybe you can move on  
Shine in, shine in  
Shine in, shine in the darkest places

Shine in, shine in the darkest places  
Shine in, shine in the darkest places

When the world it blows up, remember  
When the pain spikes face December  
Give me hope in the starless night, I  
Run and run in the summer like

Stop for a minute, do not be scared  
I bet the finish line hasn't moved, he swears  
Stop for a moment, look up the sky  
Chasing your dreams sometimes drives you mad

Someday it is in your hands  
To put off this sad sad face  
Maybe you can move on  
Shine, shine in the darkest places  
Someday it is in your hands  
To put off this sad sad face  
Maybe you can move on  
Shine in, shine in  
Shine in, shine in the darkest places

Shine in, shine in the darkest places  
Shine in, shine in the darkest places  
Shine in, shine in the darkest places

Shine in, shine in the darkest places
