Va Bene

Broken Back

Look ahead
Stop crying
What you get now
Is going to save you
Only fail when
Stop trying
No regrets now
Look what you've been through

It takes us time to make it blossom
It takes us nights to make it grow and
It takes us rhymes to make it blow son
What I mean is

High above the scares
Shine shine the stars

Va Bene, Va bene, Va Bene
Tutto ha fine
Va Bene, Va bene, Chi fa da se
Da se fa per tre
Chi fa da se, da se fa per tre
Chi fa da se, da se fa per tre

All the liars
All betraying
Fake desires
You have been through it
Cook more shit up
Keep flying and
What you built up
Is going to save you

It takes us time to make it blossom
It takes us nights to make it grow and
It takes us rhymes to make it blow son
What I mean is

High above the scares
Shine shine the stars

Va Bene, Va bene, Va Bene
Tutto ha fine
Va Bene, Va bene, Chi fa da se
Da se fa per tre
Chi fa da se, da se fa per tre
Chi fa da se, da se fa per tre
