

We Go

Broken Back

We go we go
And I wish we never come back
Now I'm on my way
You know you know
Does she show you how strong now
You finally are
We go we go
And I wish we never come back
Now I'm on my way
You know you know
Does she show you how strong now

And if I know about something something is that I plan my way
I know a did a lot of dub things but dub things gonna fade away
I'm building up my empire
We don't care if they're jealous
I'm speeding up my desires
Short treasure is the youth

Don't play to get low
We are not alone
Don't play to get slow
See troubles gone

We go we go
And I wish we never come back
Now I'm on my way
You know you know
Does she show you how strong now
You finally are
We go we go
And I wish we never come back
Now I'm on my way
You know you know
Does she show you how strong now

But where do we go when fire, there's fire all around
Feeling it in your mind right we're not from those who back down
But where do we go when fire, there's fire all around
Feeling it in your mind right we're not from those who back down

Come on give me the strength
When I drown in those shadows
Oh Lord out of the depth
Right back where it glows
Come on give me the strength
When I drown in those shadows
Oh Lord out of the depth
Right back where it glows

Don't play to get low
We are not alone
Don't play to get slow
See troubles gone

We go we go
And I wish we never come back

Now I'm on my way
You know you know
Does she show you how strong now
You finally are
We go we go
And I wish we never come back
Now I'm on my way
You know you know
Does she show you how strong now
