

Liquidated Brains

Broken Bones

Going to the pub, It's Saturday Night
Cashed my giro, feelin' alright
Been two weeks without any money
Now I'm drunk, I think it's funny
I'm sitting down, I've got a drink
I'm too fucked, I just can't think
Leave me alone, I'm on my own
Get out of my brain, just leave me alone
I was only sitting at the front
And they're all fighting, what's the point
Thatchers' system and drinking beer
Has destroyed their brains and made them fear
Made them fear (3x)
Destroyed their brains and made them fear
