

Mercy

Broken Bones

We're gonna make you, gonna take you
Big Brother's taking control
Never forgive what you did
I'm gonna take you down
Make you on your bended knees, scream
I felt your sorrow, seen your fate
You're waiting for the second coming
Crying out for time
I've seen the forthcoming destruction
A time to end all time
I wanna hear it from your bleeding lips
Pleading for mercy
A nightmare on the horizon
The coming of a black dawn
If only you could see the future
Red skies disaster
